Discussion on Collaboration with Umnugovi Aimag

November 2: Representatives from Umnugovi Aimag Visit the University to Discuss Partnership

On November 2, representatives from the Umnugovi Aimag, located in Mongolia's southern Gobi Desert region, visited the university to explore collaborative opportunities for mutual growth. During the meeting, both parties discussed key initiatives to strengthen ties between the university and the region, focusing on sustainable development through education and cultural exchanges. Both sides expressed their commitment to leveraging their strengths to enhance regional development and improve the quality of education.

Global Education Leaders Visit the University

November 5: Discussions Held for Advancing Education in Mongolia

On November 5, the Chairman of Global Education Services (GES) and its representatives visited the university. The visit was part of preparations for the upcoming "Mongolia Teachers' Conference 2024," aimed at fostering educational development in Mongolia. During the meeting, both GES and the university engaged in meaningful discussions on potential collaboration to promote growth and innovation in Mongolia's education sector. The agenda included strategies to enhance teacher training and improve the educational environment for students in Mongolia.

2024 Huree Festival Concludes with Enthusiasm

November 9: A Celebration of Tradition and Modernity at the University Auditorium

The annual "2024 Huree Festival" was held on November 9 at the university auditorium, featuring a vibrant showcase of talent and creativity. A total of eight academic departments participated, presenting performances in traditional dance, singing, modern dance, and theatrical acts, demonstrating a spirit of healthy competition and unity.

This year's highlight was the Korean Language Department, which claimed first place with an innovative and culturally rich performance. The Architecture Department and Computer Science Department followed, securing second and third places, respectively. A festival organizer remarked, "This event truly showcased the students' passion and creativity. We will continue to provide platforms for them to display their talents in the future."

Visit from Korea Minting and Security Printing Corporation

November 11: Discussion on Mongolia's E-ID Project

On November 11, representatives from the Korea Minting and Security Printing Corporation visited the university to discuss Mongolia's upcoming electronic ID project. The meeting focused on exploring potential collaborative efforts to support the introduction of electronic identification systems in Mongolia. Both parties expressed enthusiasm about working together to ensure the success of the project.

Multimedia Department Receives Accreditation

November 15: Accreditation Secured from the Mongolian Ministry of Education

On November 15, the Multimedia Department was officially accredited by the Mongolian Ministry of Education. This marks another significant milestone for the university, following the accreditation of the Computer Science, Information and Communications, and Korean Language Departments last July. The recognition reaffirms the department's commitment to providing high-quality education in multimedia studies.

Heating System Installed in the Gymnasium

November 15: Construction Progress Continues for February Opening

On November 15, heating system pipes were successfully installed in the gymnasium, which is currently under construction. The gymnasium is being built with the aim of opening for use in the upcoming February semester. Construction efforts are progressing rapidly to meet this deadline, ensuring the facility is ready to serve the students and staff.
